

Act while they're still waiting.

In a busy service hall, the wait is read against its target.

WHO PULSES IS, WHAT THIS IS, HOW IT WORKS

Pulses.ai is a UAE-born Physical Intelligence company: AI that understands your physical world.

For service branches: a long wait is noticed too late.

SEE

Pulses Vision above halls and counters

UNDERSTAND

Mood, waits and repeat visits

ACT

Told before the SLA breaks

ACROSS THE SERVICE HALL

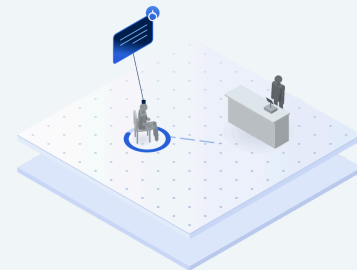

Hall, counters and back office.

01

The unhappy few

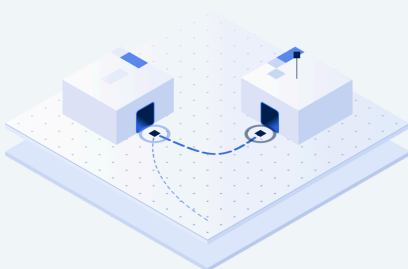

Mood tied to the wait: which counter, which service, how long.

02

Told before the SLA breaks

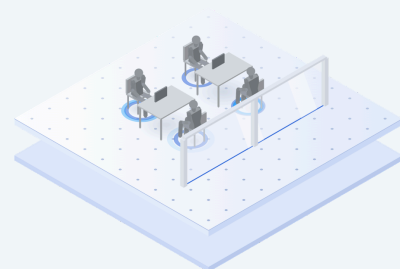

As a wait nears its target, a supervisor is told. On WhatsApp, Teams, SMS or email.

03

Same service, second visit

A visitor back for the same service, even at another branch.

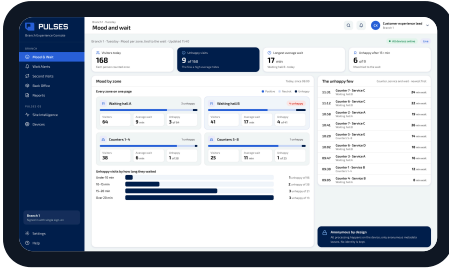

04

Back office, without the black hole

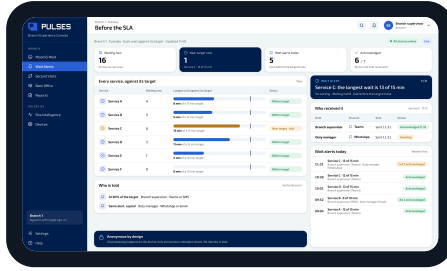

Presence and flow, room by room, the way the counters are seen.

THE PRODUCT ON SCREEN

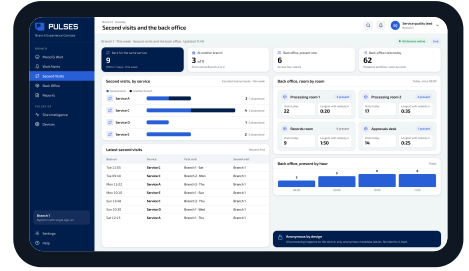

Mood and wait

Mood per zone, tied to the wait; the unhappy few by counter.

Each wait against its target

Each service's wait against its target, who was told, and when.

Second visits, back office

Visitors back for the same service; the back office, room by room.

Anonymous by design. All processing happens on the device; only anonymous metadata leaves. **Insights, not images.**

PROOF

150 million+ journeys counted across Pules deployments

Anonymous platform total

Made in UAE

Pules Vision Devices, designed and made in the UAE.

Mood and waits read while the visitor is still in the hall.
