

Your standards, between visits.

Hygiene and dress rules through the day. Till patterns worth a look.

WHO PULSES IS, WHAT THIS IS, HOW IT WORKS

Pulses.ai is a UAE-born Physical Intelligence company: AI that understands your physical world.

For cafés and quick service: standards get checked on visit day.

SEE

Pulses Vision over the kitchen and till

UNDERSTAND

Hygiene, uniform and till patterns, understood

ACT

A list worth a manager's look

THE PROBLEM

The rules hold on visit day.

The area manager walks in once a week or once a fortnight, and that day the kitchen's rules hold.

Between visits, unchecked.

The shift manager is on the line, cooking, not walking the rules.

The till log runs on.

Hundreds of lines a day, rarely read end to end.

HOW IT WORKS

From the ceiling to a list.

01

Over the kitchen and the till

A Pulses Vision device on the ceiling, over the prep line, the cook line and the till.

02

Your rules, counted

Each rule checked by area and shift; the till log joined to the counter.

03

Each miss, an open item

The shift manager closes it; till patterns go to the store manager for review.

BEHIND THE COUNTER, EVERY DAY

Owned by operations

Your own hygiene and dress rules, set by operations and checked through the day.

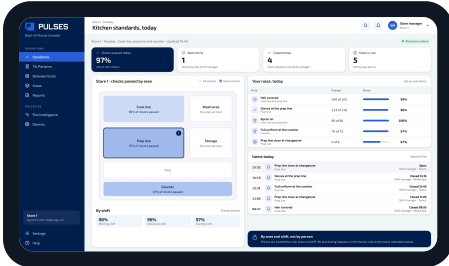

Where the team already is

Alerts on WhatsApp, Teams, SMS or email; each miss an item the shift manager closes.

Every store on one page

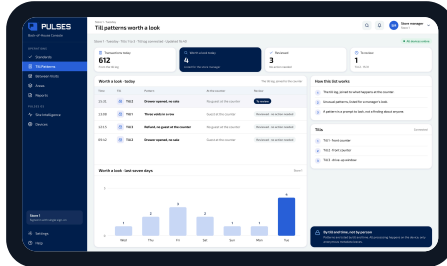

Each store's week on one page, for the area manager.

THE PRODUCT ON SCREEN

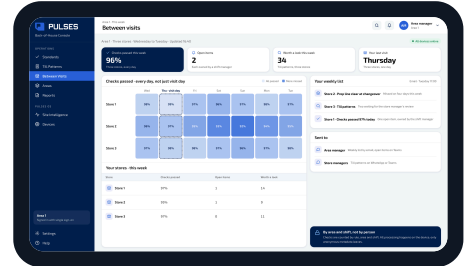

Kitchen standards, today

See your hygiene and dress rules checked through the day, by area and shift, owned by operations. When a rule slips, the shift manager hears on WhatsApp or Teams, and closes the item.

Till patterns worth a look

Unusual till patterns, with the till log joined to the counter, become a list worth a manager's look. A pattern is a prompt to look, not a finding about anyone.

Between visits

And the area manager sees each store between visits, not just on visit day.

Privacy. All processing happens on the device; only anonymous metadata leaves.
