

Ahead of the rush.

The line, the wait and the walkouts, understood at the counter.

WHO PULSES IS, WHAT THIS IS, HOW IT WORKS

Pulses.ai is a UAE-born Physical Intelligence company: AI that understands your physical world.

For cafés and quick service: the line builds unnoticed.

SEE

Pulses Vision above the door and counter

UNDERSTAND

Queues, waits and walkouts, understood

ACT

Your shift lead gets the heads-up

THE PROBLEM

The rush arrives all at once.

Yet the line builds unnoticed, and some guests walk out without ordering.

The roster, from memory.

Often built from memory and a till log of paying guests.

The wait, at the till.

Often timed at the till, not across the whole visit.

HOW IT WORKS

From the door to a heads-up.

01

Order to hand, end to end

Order-to-hand time covers the whole visit, not just the till.

02

Walkouts and returns, counted

Walkouts and return visits are counted, no app or card needed.

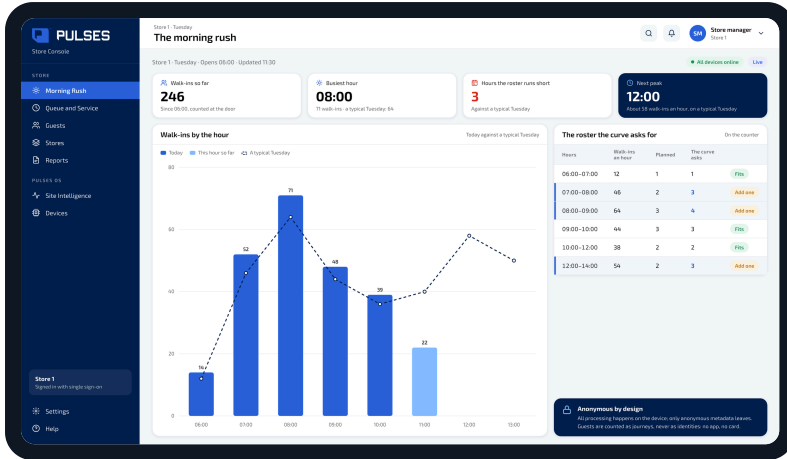

03

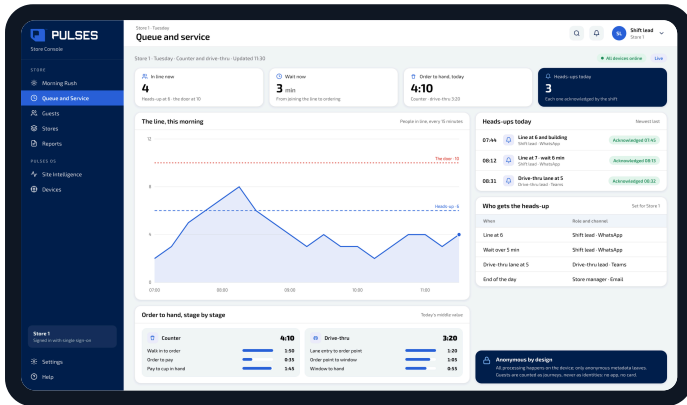

Heard before the door

The shift team hears when the line builds, before it reaches the door.

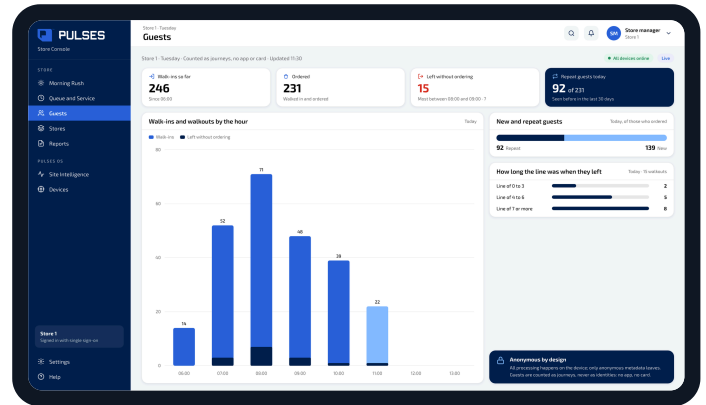

THE PRODUCT ON SCREEN

The rush, by the hour.

The line, before the door.

Walkouts and return visits.

BY DESIGN

All processing happens on the device; only anonymous metadata leaves.

Guests are counted as journeys, never as identities: no app, no card.

PROOF

150 million+ journeys counted across Pulses deployments

Anonymous platform total

🇦🇪 Designed and made in the UAE

NEXT STEP

Walk your floor with us.

We walk through your rush hours with you, from the door to the counter.
